Dear Parents / Carers,

Please be aware that there have been a number of cases of “Slapped Cheek” in school – this is a viral infection where a child has a very red almost burning look to the face.

“Slapped Cheek” is a virus and there is no treatment needed however it could be harmful to anyone within the early stages of pregnancy. If this applies to you please speak to your doctor/midwife.

“Slapped Cheek” passes quite quickly and there is no need for a child to be absent from school.
